# Quick Start Guide

BEECAM
the Biodiversity Inventory
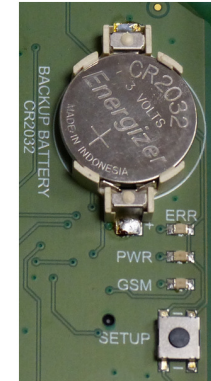

1

Connect the Battery Pack to the Camera

2

Open the camera Cover

3

Plug a USB stick (FA32 formatted) into the USB slot

4

Push the ON/OFF button. Wait for the PWR LED to stop flashing (constantly lit)

5

Connect your smartphone (or any Wifi capable device) to the BEECAM hospot:
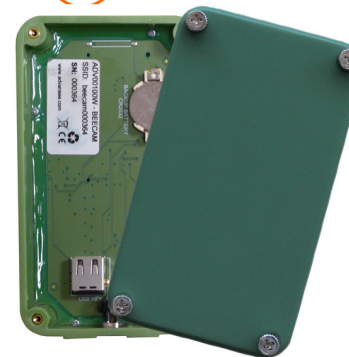

SSID: beecam123456 [1]
password: tgv44air!

[1] The actual name is beecam followed by the camera serial number (to be found on the sticker inside the camera)

6

Setup your camera through an internet browser

7

Push the ON/OFF button. Wait for the green LED to turn OFF.

Close the camera cover.

INFORMATION

Before using the camera, read the user's manuel
